

# Accessibility

## Accessibility Standard AA

Test Valley Borough Council aims to make this website accessible to all users and as a result follows certain standards and Government guidelines to ensure that this site can be used as effectively and easily as possible by everyone.

The website has been designed to be as accessible to as many people as possible. This includes the four main groups of people who are likely encounter problems accessing this website:

- People with a sensory impairment, which includes: Visual impairments, Hearing impairments
- People with motor impairments, e.g. arthritis, which makes it difficult to use a mouse or keyboard
- People with a learning disability who may find lengthy or complicated sites difficult to use
- People without access to the latest, highest specification, computer hardware or software

## Helping web users to see our web pages

### Screen readers

Most of the web pages are designed to be used with screen readers, so that visually impaired users can easily access the content and navigate the site.

### Text Size

If you find the text size on this website is too small or too large for you to read comfortably, you can change the size of the text via the buttons situated in the top right corner of the screen. These will change the size of the text or alter the contrast on the screen.

If you would like to discuss our approach to accessibility on the site, make a comment or pass on any suggestions, please feel free to contact us using the web comment form.
